

A WORD FROM YOUR MUNICIPAL CIVIL SECURITY COMMITTEE

In Quebec, municipalities are responsible for first line protection of persons and property in a disaster situation. The purpose of this bulletin is to inform you that the Town of Dixville is presently revising its CIVIL SECURITY PLAN, which will enable us to be prepared to RESPOND TO EMERGENCY SITUATIONS which could occur on our territory. The implementation of this plan is one of the steps taken by our municipal council to ensure the security of citizens and their property, and a special committee is in the process of updating the plan.

The plan is based on the model proposed by the Ministry of Public Security, which is responsible for enforcing the Law respecting civil security.

In order to be cognizant of our local resources the municipal civil security committee is taking inventory of equipment, qualifications and skills located on our territory and we are trying to recruit volunteers to be part of our *Emergency Response Team*.

We do need you !

We are therefore counting on you to fill out this questionnaire and return it to our the Town Office. We will continue to keep you informed of our planning processes in the development of our civil security plan.

Many thanks from your Municipal Civil Security Committee

DEFINITION OF A DISASTER

A serious occurrence, real or expected in the short term, caused by a fire, an accident, an explosion, a natural phenomenon or a technical failure, whose scope causes or may cause the death of persons, threaten their security or physical integrity, or occasion extensive damages to property.

For additional information, please do not hesitate to contact the municipal office at 819 849-3037
You may return your questionnaire by mail, email, by fax, or by dropping it off at the municipal office.
